ADDITIONAL INFORMATION/CLARIFICATIONS/DESCRIBED BELOW:

Question: I have been informed that page EP-102 of the drawings is in error, and that there should be only four locations included (The "Valet-L" being there by mistake). Is this correct?

Answer: Omit Site "3L" as described on Project Location Map – C2 on sheet GI-100 and as callouts on floor plans for "Existing Condition", "Demolition" and "New Work".
Typical plans for Lower Level are Valet-L, 4L, 2L and 1L. Total of FOUR crosswalk locations on Lower Level (Arrival)
