

BIRMINGHAM-SHUTTLESWORTH INTERNATIONAL AIRPORT

**REQUEST FOR QUALIFICATIONS
FOR
PROFESSIONAL ARCHITECTURAL-ENGINEERING DESIGN CONSULTING
SERVICES FOR THE RENTAL CAR QUICK TURN AROUND (QTA) FACILITIES
DEVELOPMENT PROJECT**

Birmingham Airport Authority
5900 Messer Airport Highway
Birmingham, Alabama 35212

The Birmingham Airport Authority (hereafter referred to as the “Authority”) is seeking professional architectural and engineering design from a Consulting Firm and/or team to plan and design a Quick Turn Around (QTA) Facility for each of the rental car tenant agencies. The Birmingham-Shuttlesworth International Airport serves the five-county Metropolitan Area by providing essential air services for passengers, air cargo and other aviation–related needs. The four rental car brands (hereafter referred to as “RAC”) currently operate from counters located inside the parking deck situated on the ground level. The RAC pick-up and return services are similarly located on the ground level directly adjacent of the RAC counters, and therefore require no bus transportation to or from the terminal building.

All interested participants are strongly urged to attend this conference.

Any and all questions are to be directed to the Project Manager, Mr. Lowrenzo Taylor, via email; ltaylor@flybirmingham.com. Request for Qualifications (RFQ) packages can be procured via the Airport website, www.flybirmingham.com , beginning, Monday, September 12, 2016.

A Pre-Submittal Conference will be held on Thursday, September 15, 2016, starting at 2:00 p.m. local time at the Birmingham-Shuttlesworth International Airport’s Meeting Room B. This meeting room is situated on the Terminal building’s lower level, adjacent to the Birmingham Police Department Substation, near the escalators, located at 5900 Messer Airport Highway, Birmingham, Alabama 35212.

DBE Policy: It is the policy of the Birmingham Airport Authority (Authority) that DBEs as defined in 49CFR Part 26, will have maximum opportunity to participate in the performance of all Authority projects and the bidders will take all necessary and reasonable steps to ensure that DBEs have the maximum opportunity to compete for and perform subcontracts. Additional DBE information is contained in the full Request for Statement of Qualifications packages.
